# apilexin<sup>®</sup>

Fast Acting Broad Spectrum Antibiotic

Each gram contains Cephalexin IP equivalent to anhydrous Cephalexin 75 mg

## USES & BENIFITS

- ▶ Cures all types of bacterial Diseases.
- ▶ apilexin is a first generation cephalosporin antibiotic. Cephalosporins contain a beta lactam and dihydrothiazide. Unlike penicillins, cephalosprins are more resistant to the action of beta lactamase.
- ▶ apilexin inhibits bacterial cell wall synthesis, leading breakdown and eventually cell death.

## DOSAGES :

- ▶ To prevent Early Chick Mortality 20 g sachet for 1500 chicks for 5 days in drinking Water.
- ▶ For Treatment of Diseases:  
20 g sachet for 1500 Chicks, 250 Growers, 100 Layers for 3-5 Days in drinking water

## PRESENTATION :

A box of 10 Sachets of 20g each.
