Uniformity And Fast Weight Gain

Methionine activity :	127.60gm
Choline Chloride :	63.125gm
Lysine Hydrochloride :	63.125 gm
Magnesium :	595.40mg
Sodium :	459.00mg
Manganese :	384.55mg
Ferrous (iron) :	223.40mg
Zinc :	215.70mg
Cobalt :	206.25mg
Copper :	158.80mg

USES & BENIFITS

- ▶ Simulates natural immunity and protects liver and kidney.
- ▶ MHA get readily absorbed from intestines and converted into L-Methionine for faster body weight gain and egg production.
- ▶ Choline Chloride in high concentration keeps liver healthy and supports against heat stroke mortality, fatty liver syndrome.
- ▶ Improves hatchability & reduce mortality.

DOSAGES :

- ▶ Chicks: 2-4 ml per liter of water 5-10 ml per 100 chicks
- ▶ Broilers/Layers: 0.5-1ml per liter of water OR 10-20 ml per 100 chicks
- ▶ Breeders: 1-1.5 ml per liter of water 20-30 ml per 100 chicks

PRESENTATION :

500ml, 1lt.
